

Safety Data Sheet

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Date of Issue: 21 March 2023

Product Name: EconoSorb; Econo-Sorb Synonym(s): ECS8; Sponge Grit 1

Product Use(s): Absorbent for general purpose liquid spills, such as fuels, oils, coolants

and non-aggressive chemicals.

Supplier Contact Details: Ecospill Pty Ltd

ABN: 45 144 563 977

PO Box 5592 Brendale BC QLD 4500

Ph: 07 3881 0554

Web: www.ecospill.com.au

Emergency Contact Phone 07 3881 0554 (24hrs)

2. HAZARDS IDENTIFICATION

Classification of the NOT CLASSIFIED AS HAZARDOUS ACCORDING TO AUSTRALIAN

substance or mixture: WHS REGULATIONS

Label Elements: No signal word, pictograms, hazard or precautionary statement have

been allocated.

Other hazards: No information provided.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Substances / Mixtures

Ingredient	CAS Number	ED Number	Content
CELLULOSE	-	-	>60%
ADDITIVE(S)	-	-	Remainder

4. FIRST AID MEASURES

Description of First Aid Measures

Eye If in eyes, hold eyelids apart and flush continuously with running water.

Continue flushing until advised to stop by a Poisons Information Centre,

a doctor, or for at least 15 minutes.

Inhalation If inhaled, remove from contaminated area. Apply artificial respiration if

not breathing.

Skin If skin or hair contact occurs, remove contaminated clothing and flush

skin and hair with running water.

Ingestion For advice, contact a Poison Information Centre on 13 11 26 (Australia

Date of Issue: 21 March 2023

Wide) or a doctor (at once). If swallowed, do not induce vomiting.

First aid facilities Eye wash facilities should be available.

Most important symptoms and affects, both acute and

delayed:

Adverse health effects are not anticipated from this product under

normal conditions of use.

Immediate medical attention and special treatment:

Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing media: Dry agent, carbon dioxide or water fog. Prevent contamination of drains

and waterways.

Special hazards arising from the substance or mixture:

Combustible. May evolve carbon oxides and hydrocarbons when

heated to decomposition.

Advice for firefighters: Evacuate area and contact emergency services. Toxic gases may be

evolved in a fire situation. Remain upwind and notify those downwind of hazard. Wear full protective equipment including Self Contained

Breathing Apparatus (SCBA) when combating fire. Difficult to extinguish

once burning.

Hazchem code: None allocated.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and

Wear Personal Protective Equipment (PPE) as detailed in section 8 of

the SDS.

emergency procedures: Environmental precautions:

Prevent product from entering drains and waterways.

Methods of cleaning up:

If spilt, collect and re-use where possible.

Reference to other sections: See sections 8 and 13 for exposure controls and disposal.

HANDLING AND STORAGE

Precautions for safe

handling:

Before use carefully read the product label. Use of safe work practices are recommended to avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Prohibit

eating, drinking and smoking in contaminated areas.

Condition for safe storage,

including any incompatibilities:

Store in a cool, dry, well ventilated area, removed from foodstuffs. Ensure containers are adequately labelled, protected from physical damage and sealed when not in use. Keep out of reach of children.

Specific end use(s): No information provided.

8. EXPOSURE CONTROLS / PROTECTION

Control parameters:

Exposure StandardsNo exposure standards have been entered for this product.

No biological limit values have been entered for this product.

Exposure Controls:

Engineering controls Avoid inhalation. Use well in ventilated areas.

PPE:

Eye/Face Wear dust-proof googles. **Hands** Wear PVC or rubber gloves.

Body When using large quantities or where heavy contamination is likely, wear

coveralls.

Respiratory Where an inhalation risk exists (in windy conditions), wear a Class P1

(Particulate) respirator.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties:

Appearance TAN COLOURED FINE PELLETS

Odour SLIGHT WOOD SCENT

Flammability COMBUSTIBLE
Flash point NOT RELEVANT
Boiling point NOT AVAILABLE

PHYSICAL AND CHEMICAL PROPERTIES continued...

Melting point **NOT AVAILABLE Evaporation rate NOT AVAILABLE** рΗ NEUTRAL (pH7) Vapour density NOT AVAILABLE Specific gravity VARIABLE (<0.6) Solubility (water) INSOLUBLE Vapour pressure **NOT AVAILABLE** Upper explosion limit **NOT AVAILABLE** Lower explosion limit **NOT AVAILABLE** Partition coefficient **NOT AVAILABLE** Auto-ignition temperature **NOT AVAILABLE Decomposition temperature NOT AVAILABLE NOT AVAILABLE** Viscosity **Explosive properties NOT AVAILABLE** Oxidising properties NOT AVAILABLE Odour threshold NOT AVAILABLE

10. STABILITY AND REACTIVITY

Reactivity: Carefully review all information provided in sections 10. Stable under recommended conditions of storage.

Possibility of hazardous

reactions:

Polymerization is not expected to occur.

Conditions to avoid:
Incompatible materials:
Avoid heat, sparks, open flames and other ignition sources.
Incompatible with oxidizing agents (eg: hypochlorites).
May evolve carbon oxides and hydrocarbons when heated to

products:

decomposition.

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity Information available for the product:

This product is expected to be of low toxicity. Due to the product form,

adverse health effects are not anticipated with normal use.

Skin Not classified as a skin irritant. Prolonged or repeated contact may

result in mild irritation.

Eye Exposure considered unlikely. Due to product form and nature of use,

the potential for exposure is reduced.

Sensitisation Not classified as causing skin or respiratory sensitization.

MutagenicityNo evidence of mutagenic effects.CarcinogenicityNo evidence of carcinogenic effects.

Reproductive No relevant or reliable studies were identified.

STOT – single exposureNot classified as causing organ damage from single exposure.

Not classified as causing organ damage from repeated exposure.

Date of Issue: 21 March 2023

Aspiration This product does not represent an aspiration hazard.

12. ECOLOGICAL INFORMATION

Toxicity Persistence andLow toxicity to aquatic organisms.
This product is biodegradable.

degradability

Bioaccumulative potential This product is not expected to bioaccumulate.

Mobility in soilNo information provided.Other adverse effectsNo information provided.

13. DISPOSAL CONSIDERATIONS

Waste Treatment methods

Dispose of to an approved landfill or waste processing site. Contact the Waste disposal

manufacture/supplier for additional information if required.

Legislation Dispose of in accordance with relevant local legislation.

14. TRANSPORT INFORMATION

NOT CLASSIFIED AS A DANGEROUS GOOD BY THE CRITERIA OF THE ADG CODE, IMDG OR IATA

	LAND TRANSPORT	SEA TRANSPORT	AIR TRANSPORT
	(ADG)	(IMDG / IMO)	(IATA / ICAO)
UN Number	None Allocated	None Allocated	None Allocated
Proper Shipping Name	None Allocated	None Allocated	None Allocated
Transport Hazard	None Allocated	None Allocated	None Allocated
Class			
Packing Group	None Allocated	None Allocated	None Allocated

Environmental hazards Special precautions for user

No information provided No information provided

Hazchem code None Allocated

15. REGULATORY INFORMATION

Safety health and environmental regulations / legislation specific for the substance or mixture

Poison schedule A poison schedule number has not been allocated to this product using

the criteria in the Standard for the Uniform Scheduling of Medicines and

Poisons (SUSMP)

Classifications Safety Australia criteria is based on the Globally Harmonised System

> (GHS) of Classification and Labelling of Chemicals. The classifications and phrases listed below are based on the Approved Criteria for

Classifying Hazardous Substances [NOHSC: 1008 (2004)].

Hazard codes None allocated. None allocated. Risk phrases Safety phrases None allocated.

Inventory listings AUSTRALIA: AICS (Australian Inventory of Chemical Substances):

All components are listed on AICS, or are exempt.

EUROPE: EINECS (European Inventory of Existing Chemical

Substances)

All components are listed on AICS, or are exempt.

16. OTHER INFORMATION

Additional information:

WORKPLACE CONTROLS AND PRACTICES:

Unless a less toxic chemical can be substituted for a hazardous substance, ENGINEERING CONTROLS are the most effective way of reducing exposure. The best protection is to enclose operations and/or provide local exhaust ventilation at the site of chemical release. Isolating operations can also reduce exposure. Using respirators or protective equipment is less effective than the controls mentioned above, but is sometimes necessary.

EXPOSURE STANDARDS - TIME WEIGHTED AVERAGE (TWA) or WES (WORKPLACE EXPOSURE STANDARD) (NZ):

Exposure standards are established on the premise of an 8 hour work period of normal intensity, under normal climatic conditions and where a 16 hour break between shifts exists to enable the body to eliminate absorbed contaminants. In the following circumstances, exposure standards must be reduced: Strenuous work conditions; hot, humid

Page 4 of 5

climates; high altitude conditions; extended shifts (which increase the exposure period and shorten the period of recuperation).

PERSONAL PROTECTIVE EQUIPMENT GUIDELINES:

The recommendation for protective equipment contained within this report is provided as a guide only. Factors such as method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final selection of personal protective equipment is made.

HEALTH EFFECTS FROM EXPOSURE:

It should be noted that the effects from exposure to this product will depend on several factors including: frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a report which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.

Abbreviations	ACGIH	American Conference of Governmental Industrial Hygienists
	CAS#	Chemical Abstract Service number – used to uniquely identify chemical compounds
	CNS	Central Nervous System
	EC No.	European Community Number
